

BOOSTING HEALTH, SAFETY & SUSTAINABILITY CLEANING FOR WELLNESS

Producing Healthy ENVIRONMENTS

Program Overview

Cleaning for appearance is the industry standard. At Harvard, we believe in cleaning beyond appearance alone.

Our Cleaning for Wellness program boosts the health and safety, sustainability, productivity, and asset preservation of your facility by removing contaminants without harming the environment, your employees, or your facility; all while our cutting-edge quality assurance programs monitor the outcomes.

With Harvard, your facility doesn't just look clean; it is clean.

Program Features

- ✓ Appearance
- ✓ Sustainability
- ✓ Health & Wellness
- ✓ Asset Preservation
- ✓ Efficiency & Quality

Comprehensive Approach

Many companies employ cleaning service providers to achieve only an acceptable level of appearance. Harvard's Cleaning for Wellness program takes a different approach to improved hygiene. Our obsession around cleaning measures not only appearance, but also health and safety, sustainability, productivity, and asset preservation.

Intelligent Service[™]

Janitorial service continues to evolve and Harvard leads the industry with innovative cleaning solutions and programs we use to deliver Intelligent Service[™]. Our program couples our obsession with Cleaning for Wellness with data insights gathered through our various technology platforms.

Certified Cleaning

Harvard is one of the most certified contractors in the industry. As employers think about employee wellness programs, they should also include the cleanliness of their indoor environment and utilize only certified cleaning contractors.

Indoor Air Quality

We utilize the highest quality processes, cleaning products, tools, and equipment to aid in the removal of building contaminants.

Our proven systems are so complete that they have earned GreenGuard certification for their ability to improve Indoor Air Quality (IAQ).

Committed

At Harvard, our commitment to our clients and building occupants, as well as the environment, is demonstrated in our Cleaning for Wellness Program and our environmental certifications.
